Dear St. Martini Congregation

BACKGROUND

Mandlazini is a congregation of few families, comprising of members who are employed, single parents, learners and others are pensioners. The congregation is based in the rural area on the outskirts of Richards Bay. It was established twelve (12) years ago and members have been worshipping in one of the families garage.

Our wish has been to build a church house ever since this congregation was established. The building project is dependent on members' contributions, in the form of money, skills and building material. God has blessed this project in a wonderful manner as the structure has been erected and the congregants are actively involved in finalising specific details, using their respective expertise.

EXPRESSION OF GRATITUDE

As members of this congregation, we are humbled by your generosity as we received your donation of R17 500.00 through Reverend Stephan Gensicke.

This donation came at the time when we most needed it as we were fundraising for the doors and windows for the church house. God's timing is always perfect.

We are extending our sincere gratitude as you came to our rescue in the time of need and we really feel that God is on our side as we move towards finalisation of the project.

Thank you very much

Mrs N.B. Nkwanyana (Secretary)

Mr M. Sibiya (Chairperson)
